SUMMARY

Software Engineer with 2+ years of experience building web applications, focusing on React, Next.js, and TypeScript frontend development. At EPAM Systems, worked as a frontend developer using Agile/SCRUM methodology on a travel agency application, building customer and travel-agent workflows and collaborating with backend developers to integrate the UI with REST APIs and AWS services. Previously at Yurik B.V., worked directly with the founder on three live AI-driven products, owning frontend development and contributing to backend services and AI.

PROFESSIONAL EXPERIENCE

Yurik B.V - AI Solutions and Projects

2023 – 2025

EPAM Systems

April 2026 - September 2026

PROJECTS

At EPAM

Project: Travel Agency Application — an application for automating and improving operations across a travel agency company network.

- Built frontend features with **React**, **React Router**, **TanStack Query**, **Context API**, **React Hooks**, **TypeScript**, and **Tailwind CSS**.

- Implemented customer and travel-agent workflows including registration, login, tour browsing, personal tours, reviews, booking, cancellation, and feedback collection.

- Integrated the frontend with **REST APIs** and collaborated with backend developers working with **Amazon DynamoDB**, **AWS Cognito**, and **Amazon S3**.

- Tested and verified APIs using **Swagger UI** and **Postman**.

- Built responsive interfaces from **Figma** designs using **Tailwind CSS** to support different screen sizes and **Lucide React** for icons.

- Added component and hook tests with **Vitest** to improve application reliability.

- Applied **useMemo** and **useCallback** where appropriate to reduce unnecessary recalculations and re-renders.

- Migrated frontend-related project documentation to **KubeRocketCI** and worked with the team's CI/CD workflow.

Team: 1 Product Owner, 1 Project Manager, 1 Frontend Developer, 3 Java Backend Developers, 1 Manual QA, 1 Automation QA, 1 Business Analyst.

Technologies: React, React Router, TanStack Query, TypeScript, Context API, React Hooks, REST APIs, Tailwind CSS, Vite, Vitest, Zod, Lucide React, Figma, Amazon DynamoDB, AWS DynamoDB, AWS Cognito, Amazon S3, KubeRocketCI, Swagger UI, Postman, Git, GitHub Copilot, Claude Code, Jira, VS Code

Methodology: Agile/SCRUM

At Yurik B.V

UpScore.ai - IELTS Writing Assistant Platform

- Developed an AI-powered essay evaluation system that provides instant, detailed feedback on IELTS essays
- Implemented a learning platform with 30+ practice topics and interactive essay templates
- Integrated user authentication, progress tracking, and essay history features
- Applied PWA functionality for offline access on desktop and mobile
- **Technologies:** Next.js, TypeScript, Tailwind CSS, OpenAI API, MongoDB, Prisma ORM, PWA, Stripe
- **Links:** <https://github.com/elnur004/ielts> | <https://upscore.ai/>

SHRM Certification Preparation Platform

- Developed a web application using Next.js 14 and TypeScript
- Implemented responsive UI with Tailwind CSS, featuring 1000+ exam questions
- Integrated PWA functionality for offline access on desktop and mobile
- Created a platform with study guides and educational resources
- **Technologies:** Next.js, TypeScript, Tailwind CSS, MongoDB, Prisma ORM, PWA, PDFKit
- **Links:** <https://github.com/elnur004/shrm> | <https://shrm.upscore.ai/>

BoekieBot - Financial Management Platform

- Developed a web application for automated expense tracking and VAT management
- Integrated Claude AI for intelligent document analysis and data extraction
- Implemented automated VAT calculations and compliance checks
- Built a responsive UI supporting all device sizes
- **Technologies:** Next.js 15, TypeScript, Tailwind CSS, MongoDB, Claude AI API, NextAuth.js
- **Links:** <https://github.com/elnur004/boekiebot> | <https://boekiebot.nl/>

TECHNICAL SKILLS

JavaScript, React, HTML5, CSS3, Next.js, Tailwind CSS, TypeScript, React Hooks, React Router, Context API, TanStack Query, REST API, Swagger UI, Postman, MongoDB, Prisma ORM, AWS DynamoDB, AWS Cognito, and Amazon S3, KubeRocketCI, Unit Test, Jest, Vitest, Git/GitHub, NPM/Yarn, Vite, Vercel, CI/CD, Stripe Integration, Progressive Web Apps (PWA), Responsive Design, OpenAI API, Anthropic API, Prompt Engineering, GitHub Copilot, Claude Code, Cursor AI, Jira

LANGUAGES

Azerbaijani: Native

English: Upper Intermediate

Turkish: Advanced

Russian: Upper Intermediate

EDUCATION

Bachelor's Degree in Information Security in Telecommunication Systems

Russian State University for the Humanities - Moscow

2004 – 2010
